

HIGH HAND HOLD'EM POKER

High Hand Hold'em is a mobile-first hold'em poker game with a unique sidebet to give players an added incentive to show down against the dealer.

Built for portrait-mode gameplay, the game features a quick-fire sidebet and bonus that pays out if the player's hand value is three-of-a-kind or better.

Designed to enhance the experience for on-the-go mobile poker players, High Hand also works seamlessly on desktop, combining a traditional table game classic with the latest technology.

High Hand Hold'em Poker's side bet means that even if players lose their main bet to the dealer, they can still receive a pay out on their side bet depending on the cards drawn during the hand.
