

BOMBAY

BLACKJACK

Bombay Blackjack is the latest addition to OneTouch's series of branded bespoke table games, bringing players a classic with a twist. Created and branded for Bombay, the new RNG table game brings players the Blackjack experience they know and love from the casino floor but with two side bets - **Perfect Pairs** and **Triple Treat**.

Triple Treat sees three random cards drawn and if players match them, they can win up to 1000x their bet. In Perfect Pairs, the player wins if the first two cards dealt are of the same rank.

Five hands can be played at the same time, providing players with plenty of opportunity to beat the dealer in this fantastic title that is optimised for mobile devices.
