

# ANGELS AND DEMONS

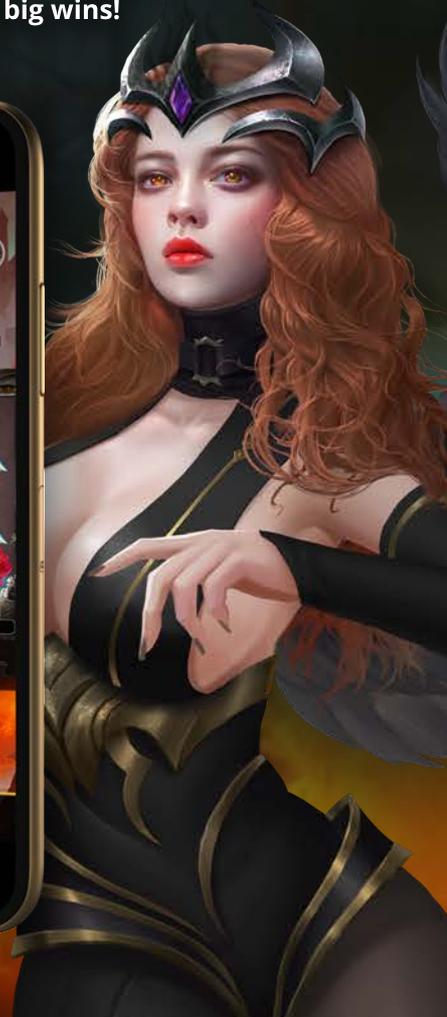

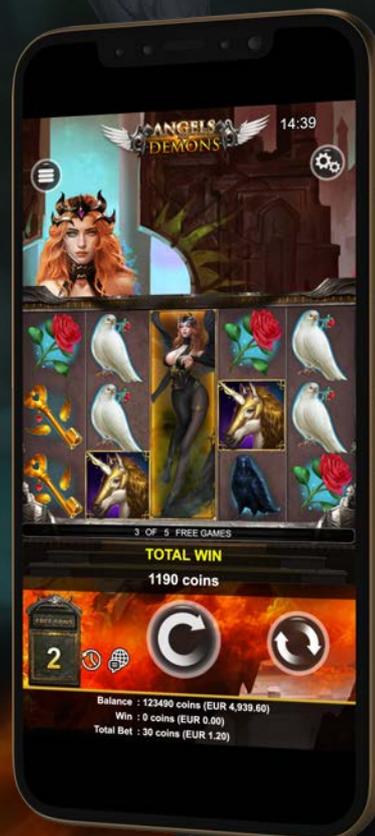

The clash of souls is about to get underway in OneTouch's **Angels and Demons**.

Between the mist of Olympus and the hellfire of the underworld, Random, Substituting, Stacked and Sticky Wilds all feature in the base game where big wins and even bigger win multipliers await you.

Three heart-shaped Scatters will trigger the Bonus Game where you can select either Heaven or Hell. Which side of good or evil you choose is up to them...

In Heaven, the heart Scatter is replaced by a Purple Sapphire that can award a random Multiplier of up to 10x on a winning line. The more Free Spins that are played will see more of her appear.

Hell meanwhile offers 5 Free Spins, where the second Demon sister appears alongside only the high-paying symbols with all low-payers removed. Both sisters appear in increasing numbers as fully-stacked Wilds to swarm Hell with big wins!
