Monkey's TREASURE

Get ready for the Mesoamerican madness of OneTouch's **Monkey's Treasure!** In this 4x1 adventure into an ancient empire, summon up to 2,200x wins with a host of god-revering Aztec masks and classic fruit mosaics, whose differing combinations can imbue various coin wins!

Colorful primates animatedly flank the reel set hopping and gesturing for big wins to fall from the gods. And divine providence comes in the form of the fourth reel which functions as the game's Feature Reel where only Special Symbols Appear!

- Wild Symbols substitute for all symbols and make a mammoth four-of-a-kind possible and up to a 2,200x line win!
- 2x, 5x and 10x Multiplier Symbols can increase exponentially the value of a line win whether that be a three-of-a-kind or a mix of different Aztec Masks or fruit mosaics combined!
- Respin Symbols grant a respin even if landing on a winning line!

Nahuatl language speakers are not required to communicate with a forgone race in this incredible OneTouch lurch into the Mexican jungle state of Monkey's Treasure!
